

Indoor navigation
Something about inclusion

Download app now 

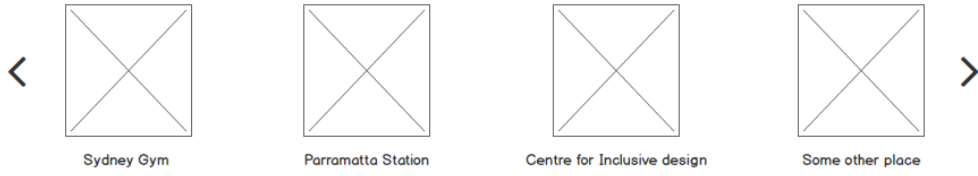

Available on android devices

THE background should be like a first person view of walking in a hallway

Sign up today for BETA release

SIMO Registered Venues

This is future state, once the venues are set up

Our mission / Inclusive technology

This is for everyone. But allows blind and vision impaired, and people with other impairments to get where they want to go more easily

Maybe some more screens here

Our services

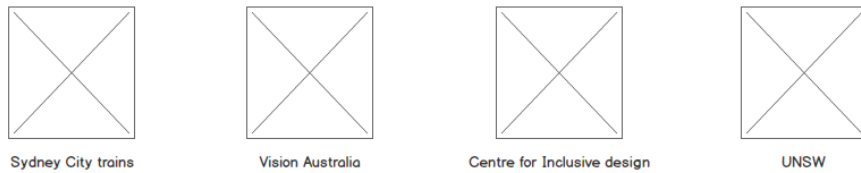

Become a SIMO Enabled venue

Contact us today

Somewhere should have the side on shot of a man walking with a cane, a woman without any guidance, and maybe someone with a dog. Maybe a guy with a cat on a lead to be funny
